AUTOMATIC RECIRCULATION REGULATING VALVE

ALL IN-ONE SOLUTIONS

ELIMINATE BUBBLES
WITH VIEGA® PRESS TECHNOLOGY

PROPRESS®

AUTOMATIC RECIRCULATION BALANCING VALVE

Viega's automatic recirculation regulating valve is an all-in-one solution and can be installed on either the riser or branch. It can be set upon installation to the temperature specified, assuring the installer that no callbacks to rebalance the system will be necessary. The valve offers a bypass for thermal disinfection so that normal maintenance can still be carried out with no restrictions. It is also suitable for drinking water applications with hot water recirculation.

SEALING ELEMENTS:
MATERIAL: BRONZE
PRESSURE: 150PSI
SIZE: 1"

COMPONENTS

- 1" male BSP connections
- Threaded temperature port (comes plugged)
- Temperature setpoint adjustment
- Integrated isolation ball valve
- Adjustable bypass
- Flow direction arrow

- Individual floor regulation
- Riser regulation
- Thermal disinfection
- Can be used with chlorine shock disinfection by AWWA C651.*

Viega ProPress and MegaPress systems are approved for over 2,500 standard and non-standard applications. Visit viega.us/propress for more information.

2,500+ APPLICATIONS

This document is subject to updates. For the most current Viega literature please visit www.viega.us. The term Viega does not apply to a specific company within the various separate and distinct companies comprising the Viega group of companies. The term Viega as used in this publication refers to the Viega brand itself or generally to the Viega group of companies. References to activities in North America specifically refer to activities of Viega LLC. Viega products are designed to be installed by licensed and trained plumbing and mechanical professionals who are familiar with Viega products and their installation. Installation by non-professionals may void Viega LLC's warranty. ©2022, Viega®, MegaPress®, ProPress®, Smart Connect®, XL®, and Viega: Connected in quality® are trademarks of Viega Holding GmbH & Co. KG.
